

Mrs. J. Semmler, Mother of Editor Passes Away; Was Born, Married And Died In Same Home

Mrs. Catherina Semmler, nee Heim, aged 73 years, mother of the editor of The News-Bulletin, died at her home in Mokena last Thursday night, August 15th at 9:25 o'clock, following an illness extending over a period of 13 years.

Although Mrs. Semmler had not known a well day during the past 13 years, she was still able to be about until the past April when she was taken critically ill one morning and from that time on was confined to bed for nearly four months.

A consultation of doctors revealed that she was suffering from an incurable disease and that her death was only a matter of time. The best of care was lavished on her and everything possible was done to make her comfortable. The last few weeks, however, she suffered agony and had to be kept entirely under opiates the last few days of her life. She was conscious to the very end. Two minutes before she drew her last breath her face was wreathed in a sweet smile and she reached out her right hand as tho she was grasping a helping hand and passed beyond.

Mrs. Semmler, nee Catherina Heim, daughter of Mr. and Mrs. Martin Heim, early pioneers of Mokena, was born on August 20, 1856 in Mokena in the same home in which she was later married and died.

She was confirmed in the St. John Evangelical church by Rev. Mr. Meyer. Sorrow came to her early in her young womanhood when her mother died after months of terrible suffering. Soon after a younger sister also died. In 1912 Edward Heim her only brother, also died, a sister Mrs. Henrietta Scheer died in 1895.

On November 8, 1885 she was united in marriage with John Semmler of New Lenox. Her wedding took place in the home of her birth. To this union one son was born who now survives.

Following a few years residence in New Lenox and Frankfort, the deceased returned with her family to her old home in Mokena where she lived happily until April 28, 1916 when the angel of death called her husband to the Great Beyond. From that time on her health was impaired and she suffered more or less all of the time and was constantly under the care of Dr. W. V. Hedges of Frankfort, every week for 13 years.

The climax to her impaired health came last fall when a niece Mrs. W. E. Houchin nee Julia Scheer of Chicago died in November 1928. Her death was such a blow to Mrs. Semmler that she showed a steady decline in her frail health from that time on.

Realizing that her earthly career was drawing to a close, Mrs. Semmler expressed her desire to pass to the beyond and accordingly placed all her affairs in order.

Funeral services were held Sunday afternoon from the late home to the St. John Evangelical church in Mokena, Rev. Wm. Kreis, former pastor of this church, now of Dorton, Illinois and Rev. W. J. Cramer, the present pastor officiated. In their sermons both pastors pointed out that Mrs. Semmler always had her home neat and inviting and that her life reflected her high Christian character and that she had implicit faith that the Lord makes all things work out for the best. Rev. Mr. Kreis spoke in German, Rev. Mr. Cramer in English.

The floral offerings were profuse and beautiful. Three favorite songs of the departed namely, "He Leadeth Me", "What a Friend We Have in Jesus" and "The Sweet By and By" were sung by Mrs. Carl Hirsch and Miss Freida Zumstein.

Burial took place in the family lot in the St. John cemetery south of Mokena.

The departed is survived by an only son William, two grand-daughters, other relatives and friends.

The News-Bulletin plant is located in the same building above referred to which is now over 80 years old. The editor had a hard task last week when the paper was being printed while his mother was dying.

There is never a day so weary But the Lord can make it bright And unto the Lord that trust him he bringeth songs in the night. There is never a heart so broken that the loving Lord can't heal For he that was crucified on Calvary does still for his loved ones feel.

Autoist Fails To Turn Corner And Is Killed

The corner of 147th and Oak Park Avenue in Galesville, three miles north of Tinley Park was the scene of a fatal accident about 2 a. m., Saturday morning when Edward Keenan, aged 32 of 15020 So. Paulina street, Harvey was killed when the auto in which he was riding with two companions, overturned. The blame was laid to the failure of the driver to negotiate the turn in the road at that point.

Ernest Walker, aged 36, of 15227 So. Paulina street, Harvey, one of Keenan's companions was taken to Ingall's Memorial hospital suffering from a possible skull fracture. It is claimed a third man left the scene before John Koehler of Koehler Bros., garage reached the wreck.

MAY ABOLISH DANGEROUS R. I. CROSSING

The Cappel crossing on the Rock Island railroad east of Mokena has been a dangerous crossing for some time and has been the scene of a number of auto smashes with trains and thru the efforts of L. G. Bruder, president of the Mokena Development Association and the co-operation of the Rock Island a movement has been started to have this crossing abolished.

Petitions have been circulated and more than enough signers secured petitioning Highway Commissioner Emil D. Cappel of Frankfort township to have a new highway established across the property of Geo. W. Maue and J. Klose located in the south half of section 4 Frankfort township.

The petition further asks that the proposed highway be 66 feet wide and be located parallel to the north property line of the Rock Island and 300 feet from said property line.

The new highway would run in a northeasterly direction and connect with route 51. As a subway is being built under the Rock Island at the route 51 crossing, the new highway would do away with all grade crossings in this section. The present gravel road from the Cappel crossing up to route 51 would be closed if the new highway is built. This plan will greatly aid in the safety of the traveling public.

The new highway from the Mokena road to route 51 would be 3040 feet in length.

A picture of the map of the proposed new highway is shown on the top of the back page in this issue.

Mrs. H. Ahrens Dies in Minn.

Mrs. Henry Ahrens, aged 61 years, sister of Mrs. George Schreiber of Tinley Park, died at her home in Lakefield, Minnesota last Thursday afternoon following a lingering illness. She is survived by her husband two sons and one daughter, all of Lakefield, and other relatives.

Funeral services were held Sunday afternoon with burial in the Lakefield cemetery.

FLOWER SHOW BIG EVENT THIS WEEK

The big event in Tinley Park this week is the third annual flower show of the Tinley Park Garden Club which is being held in the Saenger hall on Friday and Saturday of this week. The show opens at 2 p. m. day light time and continues until 10:00 p. m.

A wonderful display of flowers, fruits and vegetables will be shown. All garden lovers are invited to attend. Exhibits from all around this section will be shown. The newly organized Niagara Girl's Club will also have an exhibit.

This year the flower show has a much larger floor space for the many exhibits. Interest in the flower show has shown a steady increase during the past few years so that it was necessary for the club to secure larger quarters to stage all the exhibits without crowding them.

Orland S. W. Association Has Received Charter

The Southwest Survey Association, recently organized at Orland Park thru the instrumentality of Rev. Paul T. Sanders for the purpose of perfecting a survey of the southwest suburban territory of Chicago, has received its charter from the office of Secretary of State Wm. Stratton according to the report of Mrs. Ella Loebe, secretary of the Association.

Peterson Store At New Lenox Changes Hands

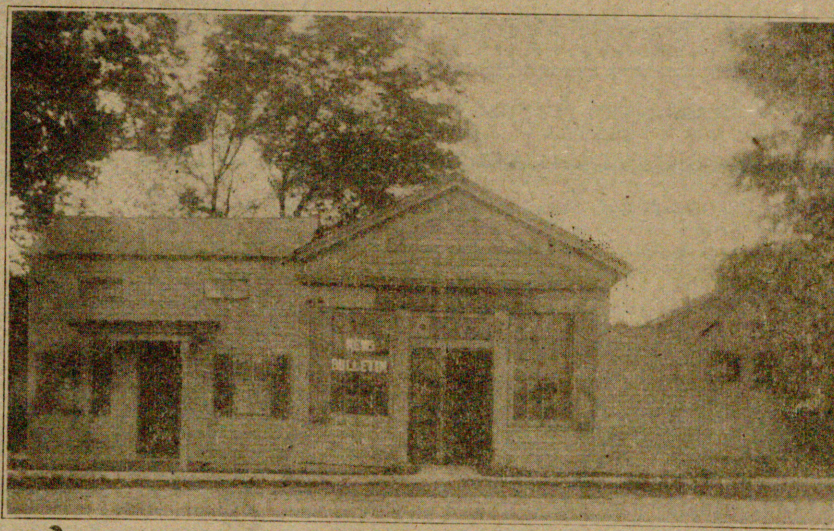

George Peterson who has been operating a grocery and market in New Lenox, has sold out to Mr. and Mrs. Walter Osmus. Mr. Peterson came here from Matteson a number of years ago and bought the business from Bert Brown.

Geo. L. Gilman New Lenox Resident, Dies

George L. Gilman, pioneer resident of New Lenox, died at his home on Haven avenue in New Lenox last Wednesday evening. He is survived by two daughters, Miss Delia Gilman and Mrs. Anna Fitzer and three grand children. His wife died four years ago.

Funeral services were held Friday afternoon at two o'clock in the late home, Rev. Thomas E. Ream, pastor of the New Lenox M. E. church officiating. Burial was in Hadley cemetery.

HOME IN WHICH EDITOR'S MOTHER WAS BORN, MARRIED AND DIED IN MOKENA

Tinley Man Finds Mexican Police Worse Than Bandits

Ferd. Parenti of Tinley Park who has returned from Arizona relates a very interesting incident that befell him in Mexico. While in the southwest he was so near to the Mexican border that he decided to go to Juarez, the city which was the chief storm center during the revolution. He found a very interesting sight. The buildings showed the bullet marks, some being nearly riddled with bullet holes.

In company with other Americans he went to a cafe and while there a fight broke out. He made a rush for the door but was arrested by the Mexican police and thrown into a filthy jail and kept there for some time without any charges against him. When he was released the police took all his money, some jewelry and whatever they could find of value on him. All that was returned to him was his railroad ticket. It appears that when Mexican officials need money they seize American visitors and fleece them of all they can get. No interpreters are furnished and all you can get out of them, is "No Sabe".

Mr. Parenti protested against the unfair treatment he received and was advised by a fellow American that he had better get back to American soil while he was alive.

The Mexican police are worse than the bandits in the opinion of Mr. Parenti.

Mokena Sewer Hearing Proves Quit Spirited

Mokena's \$54,000 sewer project was under heavy fire at the public hearing held in the old Mokena school house last Thursday night. The cost and the plans of the project were especially under fire. The Local Board of Improvements was also criticized, on the ground of holding star chamber sessions. Attorney A. H. Krusemark represented the objectors.

The hearing was adjourned to Thursday night of this week. On Wednesday of this week Ona E. McGovney, member of the Local Board of Improvements, John Cappel, Geo. Koller, Chas. Hirsch with the village engineer went to Mundelein to inspect the sewer system there which was planned by the same engineering firm which has laid out the Mokena sewer system plan. Another public hearing meeting was held in the Mokena school house on Thursday of this week.

TINLEY GARDEN CLUB NOTES

BY Mrs. John Swisher

PANSY FACES
Each pansy has a smiling face To greet me when I go To work among them with my spade And help to make them grow. But if my face gets streaked with dirt Their smiles then seem so wide, I drop my rake and hoe and spade To run away and hide.

On Friday afternoon, August 16, 1929 the Garden Club enjoyed a very interesting and educational lecture given by Dr. J. F. Fonder at the Community hall, his subject being "Autumn Diet for Plants". The program was opened with two beautiful vocal solos by Miss Selma Bruggemann, followed by a charming little recitation by Shirley Anderson.

Fruit punch and cookies were served after the lecture. Joliet, Oak Forest, Mokena and Harvey were well represented and the Garden club wishes to thank all the ladies who honored this gathering with their presence, and to urge them to attend the illustrated lecture on Sept. 27, 1929, in the Community hall. This lecture will be given by Mrs. Linn White, famous for her ability in this line, and the subject of same will be "The Making of a Garden". Mrs. E. Anderson chairman of the program committee is to be congratulated on securing the services of Mrs. White and every one should make an effort to attend. Tickets may be procured at the Flower show which is being held at the Saenger hall, Friday and Saturday of this week, August 23, and 24, from 2:30 p. m. to 10:00 o'clock.

Will Co. Road Program Interests Cook County

The firsts contracts in Will county's \$1,826,000 road program have been awarded and work started to bring that county's share of the metropolitan road system up to date. The program as outlined in the bond issue program calls for 58.2 miles of two lane highways to which may be added 15.4 miles to be constructed out of the gas tax funds and twenty miles to be built by the state.

The program of bond-issue highways just started, however, calls for a highway belt around Joliet and the paving of roads connecting with those already constructed in Cook county. The first contract to be let was on a strip of Richards street, just south of Joliet, making a short cut from the city to state route 44. State route 44 runs from Joliet thru Manhattan and Wilton Center and connects with No. 51, the Governor's highway, near Peotone.

The other contract is a strip of Theodore street north of Joliet, which will connect state routes Nos. 22 and 4 outside of the city. Later a strip from Theodore street south and to the west of Joliet will be paved, connecting with state route No. 7 to Ottawa. Thru this new road it will be possible to drive from Chicago to Ottawa, Marseilles, Utica and Starved Rock without passing thru Joliet.

Another of the roads radiating from Joliet will be the Southwest highway, which will be paved from the city limits to the Cook county line. Still another road will be a paved continuation of Wolf Road from state route No. 22 north thru Mokena to connect with Wolf road in Cook county.

Will county also will pave 143rd street from the Cook county line to where it joins state route No. 4-A just north of Lockport. This road will supply a direct route to the southern part of Chicago and into northern Indiana. Another part of the program is to pave a short cut on state route No. 4 in the northeastern section of the county to eliminate some bad turns. In addition a road will be paved between Manhattan and Monee, connecting state routes Nos. 44 and 49.

There is already some paving on this highway and it will be left unpaved and the sections between the paved strips connected with concrete. Pavements on county roads in the vicinity of Wilmington, Beecher and Crete on county roads to tie up with the state highways will complete the program.

The county program was worked out in conjunction with the Chicago Regional Plan Association and a \$1,750,000 bond issue voted by the county. This was held up by court proceedings which were finally ironed out and the issue sold for \$1,826,000.

The paving is being done under the direction of Will Smith, county highway engineer, and will be hurried.

"We will have road-making weather up to Dec. 1," he said. "and we want to do as much work as possible in that time. The contracts have been awarded on Theodore and Richards street and machinery has been moved in and started to work in Richards street."

Will county is one of the most important units of the metropolitan area's road system. It cares for much of the traffic coming from the south and southwest.

TINLEY LEGION POST NEWS

The Tinley Park Post 615 of the American Legion has everything in readiness for the big Field Meet they are sponsoring for the Tinley Park Boy Scouts Troop No. 1 benefit at the Triangle Club Athletic Field in Tinley Park on Labor Day, Sept. 2nd at 1 p. m. sharp daylight saving time. Special prizes will be awarded.

At a meeting of the Tinley Park Post 615 of the American Legion, Monday night, James Berry was chosen to represent the Tinley Park Post at the coming American Legion state convention to be held at Rock Island. Walter Mager was chosen as alternate.

The Tinley Park Post had the honor of having the following visitors at their meeting:

Commander James D. White and Junior Vice-Commander Herbert Kaester, both of Englewood and Commander Tony Wirtz, Junior Vice-Commander Dillon and Adjutant Seidel of the Midlothian Post.

PASTOR OF ST. JOHN'S, MOKENA, HAS RESIGNED

Rev. W. J. Cramer submitted his resignation to the members of St. John's church, Sunday morning to become pastor of St. John's church, at Melrose Park, Illinois.

The following tribute has been paid Rev. Mr. Cramer:

Rev. W. J. Cramer has been a successful pastor of St. John's church, in Mokena for nearly four years. During his years of a successful ministry the pastor was able to increase the membership of St. John's church over fifty per cent and has at all time labored untiringly to make St. John's church bigger and better.

The Sunday school at the present time has now an enrollment of about 180, fourteen classes and an average attendance of 120.

Rev. Cramer always greeted his people with a smile and his warm hand-shake with which he greeted his people, not only those of his membership, but also those who were not affiliated with the church, has not only made him very popular in his own congregation but in the community as well. He was very popular with his young people in whom he has found an ever-willing organization to assist him in his church work. He organized a very efficient church orchestra the finest and most capable today in the congregation and community who at all church suppers, banquets and entertainments have rendered very fine concerts. Altho the pastor gives due credit to the efficient leadership of Frank Hirsch, Jr. it was Mr. Hirsch who made the orchestra what it is today.

During Rev. Cramer's successful ministry the congregation bought a beautiful parsonage. The pastor appreciated the kindness of the congregation shown him and has made an actual contribution toward the new parsonage.

During his years of service approximately \$12,000 for the liquidation of the church debt was raised.

The Rev. Cramer was also successful in the establishment of a very fine and attractive church paper, known as the St. John's Booster. This paper was a welcome guest in the homes of the members and not only eagerly read by the members of the church, but this paper made its appearance in homes not affiliated with the church. Through this church paper a nice little sum was yearly netted for the benefit of the church.

As a minister he has faithfully performed his pastoral duties. As a preacher he preached the Gospel with all boldness and the masterful delivery of his sermons always left a lasting impression upon his listeners. His cordiality and friendliness has won him a host of friends in Mokena and elsewhere, who deeply regret his departure.

Drives 125 Miles To Print Paper

We often hear the old adage "A Friend in Need Is a Friend Indeed" and the editor of this paper found it a true saying when his old friend Don C. Hall, Jr., came to his aid last week. Last Thursday as the paper was ready for the press the editor's mother was dying. The editor telephoned to his friend Don at East Lynn, Illinois, 125 miles from Mokena Wednesday afternoon and told him of his trouble and sorrow. Friend Don was putting on a show at the time, but he left his show and left Thursday morning for Mokena, arriving at noon. He ran the press and finished printing the edition just a short while before the editor's mother passed away at 9:25 o'clock Thursday evening. Friend Don made a real sacrifice in time and money to help out his editor friend in time of need. Verily such a friend is a rare one and is to be more than appreciated.

TINLEY LIONS PLAN BIG LABOR DAY PROGRAM

The Tinley Park Lions Club is all set now for a monster Labor Day Celebration. A huge prize parade is to be one of the big features of the celebration. A very outstanding part of the parade will be the "hobo" section which promises to be full of fun all the way thru. The big parade will start at 7 p. m., daylight saving time or six o'clock standard time. At the close of the parade a big dance will be held in the Saenger Hall.

The following prizes will be awarded to the participants in the four divisions of the parade:

1st Division—Local organizations on foot largest number of members in one group \$10.

2nd Division—Hand drawn floats, first prize, \$10; second prize \$5.

3rd Division—Hobo Section. Most comical man \$5; most comical couple \$5.

4th Division—Motor floats. Best local display \$10; second choice \$5.

A very appropriate and timely prize will be awarded the holder of a lucky number admission ticket by way of a ton of Pocahontas coal.

For a real jolly and profitable time reserve your date for the Tinley Lions Club Labor Day Celebration at Tinley Park, Sept. 2nd. Sammy Berk's popular jazz orchestra will furnish the music.

MOKENA GARDEN CLUB NOTES

The Mokena Garden Club met at the home of Mrs. W. H. Lowe, Tuesday afternoon, August 20.

Mrs. A. Braun, president opened the meeting with a splendid poem, "When you know a fellow" by Edgar Guest.

The club has received an invitation from the Tinley Park Garden Club to visit their Flower Show, August 23rd and 24th also requesting the Mokena Garden club to exhibit a floral piece.

Bouquets were sent to Mrs. H. Mall, Mrs. Caroline Braun and Mrs. M. Terpenning.

Mrs. Braun read an article on "When to plant Asters", followed by a discussion.

Mrs. Muff read a very interesting paper on "White House Gardens" and Mrs. Balaz on Asters.

The next meeting will be held in the home of Mrs. A. Benson, on Tuesday afternoon, August 27, and the topic for this meeting is to be on "Peonies and potted plants."

Mrs. Lowe's front lawn was arranged in a very artistic manner as also were the flowers and rock garden.

A most pleasant afternoon was enjoyed by all.

MOKENA TO HAVE DOUBLE HEADER GAME

The Wheatland Colts did not live up to their name at all when they came to town last Sunday; they acted more like a bunch of 'buckin' bronchoas when it came to batting. They got 21 hits off of Schuldt and Homering, including a home run, and they were still going strong in the last inning when they made four runs.

Dick Kohl and Harold Schuldt shared the honors in batting for the home team. Kohl got a single, a double and a triple in four times at bat and Schuldt got two triples, but with all that good hitting we could not head off the colts.

Mokena got away to its usual lead in the first inning, but the Colts

GROW FERTILIZER IN HOME ORCHARD

Growth of Trees Depends on Plant Food and Moisture.

Too many fruit growers depend entirely upon commercial fertilizers such as nitrate of soda and sulphate of ammonia to supply plant food to their orchards. According to H. R. Niswonger, extension horticulturist at the North Carolina State college, these nitrates will maintain growth for a while but in the end some form of green manure must be turned under.

"The growth and fruitfulness of a tree depends largely upon the plant food and moisture content of the soil and this can be maintained by the use of cover crops," states Mr. Niswonger. During the past year 350 apple growers and 150 peach growers have planted sweet clover and vetch in their orchards for soil improvement purposes. The vetch was sown last August at the rate of 15 pounds to the acre and the sweet clover sown spring at the rate of 15 to 20 pounds per acre. The vetch was turned under early this spring with just enough plants left for reseeding.

Mr. Niswonger states that sweet clover in the apple orchard can be handled like a permanent sod mulch. During the seeding season, the growth should be cut twice. First, when the blossom heads begin to form and again after the seed is made. These cuttings should then be raked under the branches for a mulch. Due to the difficulty of working with farm machinery, sweet clover is recommended for apple orchards, but where it is possible to use such machinery, vetch could be used to advantage.

Since fruit trees respond readily to the use of inorganic nitrates, a few pounds of this material should be applied to each tree even where the cover crops are grown. The amount to be applied can be determined by the grower through a study of the annual ringer growth and fruitfulness of the tree.

Grape Hoe for Narrowing Rows Better Than Plow

The use of a grape hoe for narrowing the rows seems to be a decided improvement over the plow. This method was developed and used at the Ohio experiment station for the first time in 1928. About half of each row, always the same side of each row, is sliced off with the grape hoe. The grape hoe lays up the plants between the rows in such a manner that they may be gathered up much more readily than when a plow is used to narrow the rows. Then, by running a cultivator between the rows, the soil can be put into excellent condition for rooting of runners. The plate of the grape hoe should be sharp so that it will penetrate to a depth of about one and one-half inches; if the plate is dull or the soil is not in the best of condition for working it may be necessary to tie a weight, such as a heavy stone, on it.

Pick Up Peach "Drops" to Destroy Parasites

As peach drops are heavily infested with curculio "worms," growers are strongly urged to pick up these drops. A heavy second brood of "worms" may ruin the fruit as it ripens if the infested drops are not destroyed.

Experiments conducted by the United States peach insect laboratory at Fort Valley, Ga., show that three collections of dropped peaches will eliminate about 90 per cent of all curculio "worms" that fall during the season in drops. A special effort should be made to collect all the smaller drops, as these are the ones most likely to contain curculio "worms." All drops should be destroyed as soon as collected, by burying in a trench at least 18 to 24 inches below the surface of the soil. A layer of quicklime should be placed over them before filling in with soil.

Horticultural Hints

Proper pruning of apple trees means higher yields.

When fruits are eaten raw none of the vitamin content is lost.

While there must be good drainage, there are times in the growth of the black raspberry that it needs plenty water, but this can be had if the soil is of a sandy or clay loam and well cultivated.

Apple trees need an abundance of nitrogen early in the spring when the leaves are expanding.

The Burbank variety is an early-ripening cherry of good size, characters which are highly appreciated in this fruit.

Wet seasons, as every apple grower knows, are much more serious for blight than are dry ones, but under even better than a normal season, blight will be bad enough to be injurious on the varieties mentioned.

Lesson for August 25

REBUILDING THE TEMPLE

LESSON TEXT—Ezra 3:10-13; 6:14-16; Psalms 84:1-4.
GOLDEN TEXT—1 was glad when they said unto me, let us go unto the house of the Lord.

PRIMARY TOPIC—Rebuilding God's House
JUNIOR TOPIC—Rebuilding God's House.
INTERMEDIATE AND SENIOR TOPIC—Building God's House.
YOUNG PEOPLE AND ADULT TOPIC—Builders of God's House.

After becoming settled in the towns surrounding Jerusalem, the people were called together for the purpose of establishing the worship of the Lord God. The leaders in this movement were Jeshua and the priests, and Zerubbabel, the governor. In view of the fact that the clearing away of the debris of the old city and temple and the erection of the new temple would take a long time, an altar was erected where sacrifice might be offered at once unto God. Upon this newly erected altar were offered the regular sacrifices commanded by Moses, including those of the Feast of Tabernacles (Ezra 3:1-7).

I. The Foundation of the Temple Laid (3:8-13).

This was an auspicious occasion and was celebrated with most impressive ceremonies.

1. The priests' apparel (v. 10). These garments symbolized their consecration to the Lord's service.

2. The priests with trumpets (v. 10). The trumpets were used in calling together the people.

3. The Levites with cymbals (v. 10). This was according to the arrangement made by David (1 Chron. 15:16-21).

4. They sang together by course (v. 11). This means that they sang to one another responsively. The one company sang, "The Lord is good," the other responded, "For His mercy endureth forever."

5. Mingled weeping and sighing (vv. 12, 13). Some of the older men who had seen the magnificent temple of Solomon, which had been destroyed, wept much when they saw how far short the present foundation came of the former temple. Others were glad of the favor of God which had brought them back, and that a beginning was made in the new house of worship.

II. The Building of the Temple Hindered (ch. 4).

The leading adversaries were the Samaritans, a mongrel people—the offspring of the poor Jews who were left in Palestine and the foreign people who were sent into Palestine after the Jews were taken captive. The three perils which delayed the building of the temple for about fourteen years revealed the persistent methods which the enemy uses to hinder the program of God's people in every age.

1. An unintelligent pessimism (3:12).

Under the circumstances, a glorious beginning had been made. Many today, because things are not quite what they should be, do not go forward with a constructive program, but even hinder those who have the hopeful outlook. In spite of all the evil forces at work to thwart the purpose of God, the Christian church should push forward its program of evangelization.

2. Wordly compromise (4:2, 3).

"Let us build with you, for we seek your God." This is Satan's most common and effective method. God's children should not seek the world's patronage in building churches and carrying on His work. The leaders should declare with Zerubbabel, "Ye have nothing to do with us to build an house unto our God."

3. Opposition by word (4:4-24).

When refused a part in the work of intimidation and political scheming were used by the enemies to defeat the building plan of God's people.

III. The Temple Finished (5:1-6).

Through the ministry of the prophets Haggai and Zechariah, people were encouraged to resume enthusiastically the work of building the temple. When the temple was finished, it was dedicated to God.

IV. The Blessedness of Dwelling in God's House (Ps. 84:1-4).

1. The longing of the soul for God's house (vv. 1, 2).

It is refreshing when people long to meet God in His house.

2. The sparrow and swallow find protection in the sacred precincts of God's house (v. 3).

3. Dwelling in God's house (v. 4).

Those who have a heart for God find their chief delight in dwelling in His house.

Keep Going

Our new science of flying teaches us that a plane will not go down as long as it can go on. The birds have long known this and they fly. Keep going, believing, hoping, loving, and you cannot go under!

What Will the Master Say?

Will it matter at last whether you have been rich or just lived from hand to mouth? What will the Master say? Ah! that is the question.—Dr. J. B. Shaw.

Wake up your energy with this "wake-up food" POST TOASTIES

Toasted, golden flakes with all the wholesome sweetness of the sun-ripened corn—Post Toasties is just the breakfast cereal for warm weather when you want foods light and crisp. Serve it to the family tomorrow with cool milk or cream—topped off with ripe fruit or berries. See if everyone doesn't call you a good provider!

You'll send them off to work or play with a grand new store of energy. For Post Toasties is rich in energy—in the most quickly digested form. Grown-ups and youngsters alike find it easy to digest.

Easily served, too, right from the red and yellow package. Call up your grocer today.

Talcum 25c. Soap 25c. Ointment 25c. and 50c. Sample each free.

Address: "Cuticura," Dept. B7, Malden, Mass.

United States Wise in

Giving Up Old Things

When a seventy-five-year-old Maine blacksmith recently shod a twenty-five-year-old horse in a one-hundred-year-old shop, using a vise and an anvil even older, the happening was chronicled afar in the press. A similar combination of what, to us, were ancient things would not have caused the flicker of an eyelash in Egypt or China. There are many other places in the world, too, where the peoples are immune to curiosity of the kind displayed. Not that their men or their animals live, or continue active, longer than ours, but they have been less inclined than Americans to seek improvements in equipment, and so have clung closer to old buildings and old tools. Here the search is constant for better design and better materials. The ancient is discarded when the new makes its added merit certain. And that is not the least of the reasons for the start the United States often gets in achievement.—Indianapolis News.

The Prophecy

The late Avery Hopwood, the millionaire playwright who was drowned on the Riviera, was noted, of course, for his epigrams.

At a luncheon in New York one day a lady nodded towards an incredibly pretty girl and said:

"Don't you think she's lovely, Avery?"

"So lovely," said the playwright, "that I'm sure she's got a past in front of her."

Easy

"But, honey, we must get a little money together. How will we furnish our house?"

"With wedding presents."

ARTIFICIAL LIMBS

W. N. U., CHICAGO, NO. 34-1929.

In order to protect the health of the large number of people who annually attend the state fair, Dr. Andy Hall, state director of public health, and President Homer J. Tice, of the state fair board, worked out a plan whereby the state health department supervised the various concessions furnishing food and drink to the public, and also the sanitary condition of the grounds.

C. Herrick Hammond, state supervising architect, is preparing plans for fifty buildings to relieve the crowded conditions in state institutions. The buildings will be erected at Elgin, Lincoln, Normal, Manteno, Dunning, Dwight and Vandalia. Improvements are to be made at Stateville, Menard and Pontiac.

Spotted outbreaks of rabies over Illinois are engaging the attention of veterinary forces connected with the animal industry division of the state department of agriculture. Clarence F. Buck, director of the department, has issued regulations, effective in the areas affected, requiring the preventive measures—retention, muzzling or immunization of the dogs.

Barney Cohen, Chicago, prominent in labor circles of Illinois, has been appointed state director of labor by Gov. Louis L. Emmerson to succeed George B. Arnold, Chicago, resigned. Mr. Cohen held the same post under the Lowden administration.

The Egyptian club will hold its annual picnic at Washington park in Springfield at 12 o'clock noon Sunday, September 1. Every Egyptian will bring a well-filled basket and dinner will be served. It is expected that at least 2,000 Egyptians will enjoy the picnic. All Illinois people who reside south of Springfield are considered Egyptians.

A series of educational films, showing the damage that the European corn borer affects, and how such losses are reduced by cleaner farming methods, have been obtained for the enlightenment of Illinois citizens by the division of plant industry, Illinois department of agriculture. The films are now in service on fair circuits throughout Illinois.

Gov. Louis L. Emmerson has announced the appointment of Major Henry C. Hill, Galesburg, as warden of the Illinois state penitentiaries at Joliet and Stateville. Mr. Hill succeeds Elmer J. Green of Waukegan, resigned.

Over one hundred alien criminals who had completed their minimum sentences in Illinois prisons have been deported from the United States since Gov. Louis L. Emmerson took office, according to an announcement made by Rodney H. Brandon, director of public welfare. Mr. Brandon inaugurated the plan with the idea of ridding the state of proved alien criminal elements.

Plans for the new addition to the Centennial building are well under way and will be announced in the next few weeks. Work on this building will start this fall and the structure will be ready for occupancy within a year. It will relieve the state of renting a large number of offices in Springfield buildings and will add greatly to the efficiency of some of the state departments by centralizing the various bureaus which are now scattered over the city.

The apilary inspection division of the state department of agriculture, in conjunction with the state beekeepers' association, has recently conducted a three-day tour of eastern and southern Illinois. Increased interest in beekeeping, particularly in the orchard counties, is reported. In general, the honey production for the season is highly satisfactory, and the colonies of the state as a whole show comparatively little disease, the chief apilary inspector states.

Governor Emmerson has announced that he favors the enactment of the necessary legislation to make admission to the Illinois state fair free to everyone. The governor, in conference with Clarence F. Buck, director of the department of agriculture, directed that in the absence of such legislation, the department should observe strictly the state law which prohibits issuance of passes to the state fair.

Interstate bus lines operating in Illinois must pay the state gasoline tax the same as private car owners, Attorney General Oscar E. Carlstrom has advised Garret De F. Kinney, state director of finance, in an opinion.

Governor Emmerson has announced the appointment of Harry W. Hanson, Springfield, for the past eight years chief clerk in the office of secretary of state, as assistant director of trade and commerce. Deputy United States Marshal W. L. Moody, Springfield, has been appointed assistant superintendent of state highway police.

Officers and men of the Illinois National Guard to the number of 8,000 mobilized at Camp Grant near Rockford for the annual period of two weeks' intensive military training.

Dr. Jenette Hubbard Bolles, Denver, executive secretary of the Osteopathic Women's National association, had charge of the examination work at the children's clinic conducted at the Illinois state fair by the Illinois Association of Osteopathic Physicians and Surgeons.

The administrative committee of the Illinois Chamber of Commerce held a meeting Friday, August 16, at the Union League club in Chicago. A number of important matters were up for consideration. Scott Brown, Chicago, is president, and C. G. Ferris, Chicago is general secretary of the association.

County treasurers from each of the counties in the state have been making their annual trip to Springfield for the purpose of making final settlement for state taxes collected. The counties are allowed 2 per cent commission on amounts collected and a mileage charge to cover the expense of the trip. The first final settlement was made by H. W. Blizzard, seventy-six-year-old treasurer of Bond county. The Cook county settlement is being held up pending the reassessment.

Illinois coal is of a free-burning quality and is second to none in the country. It has been well said, "From the roaring furnace of industry to the hearth of the humblest home, Illinois coal meets all fuel requirements." Besides supplying the heat and energy needed in the great industrial centers of St. Louis and Chicago, it is shipped far to the west and north into states not so fortunately supplied with coal reserves as is Illinois. The Illinois Coal Sales association, through the secretary-manager, Edward A. Wieck, East St. Louis, has been particularly active in sponsoring the sale of Illinois coal.

The division of poultry husbandry, Illinois department of agriculture, has turned in reports of two new world's records in egg production from the poultry experimental plant it operates. In July one pen of five White Leghorn hens produced 153 of a possible 155 eggs. Four of the five hens made perfect scores. One hen on test has set a new high mark in continuous performance. At last report, she had laid an egg each day since February 23, and has surpassed all other official records for non-stop egg production.

State institutions and other state departments and divisions operating motor vehicles on the roads are not exempt from the provisions of the gasoline tax. Attorney General Carlstrom has written A. W. Daily, state purchasing agent.

Examinations of candidates applying for certificates as state mine inspector will be held by the mining board of the department of mines and minerals at the state house, starting Tuesday, September 10, according to an announcement made by the board. Registration of candidates will close at 5 p. m., Monday, September 9.

The state department of agriculture announces the removal of the plant industry division office and of the seed analysis laboratory from the Mine Workers' building, Fourth and Monroe streets, Springfield, to the Bruce building, 206 East Monroe street.

Mrs. Lottie Holman O'Neill, Downers Grove, Illinois' first woman legislator, has announced her candidacy for the state senatorial nomination from the Forty-first district. The seat has been occupied for four senatorial terms by Richard J. Barr, Joliet.

There was a total of \$44,074,100 worth of building and engineering work contracted for in the state of Illinois during the month of July.

The personnel of the Illinois Commerce commission appointed by Governor Emmerson is as follows: Chairman, Attorney Charles W. Hadley; Wheaton; G. Gale Gilbert, Mt. Vernon; Walter H. Wilson, Chicago; William H. Brinkman, Chicago; J. Paul Kuhn, Batavia, and Phil H. Collins, Chicago. The seventh member of the commission has not been named.

Governor Emmerson and Secretary of War Good, together with representatives of various organizations, will make a tour of the Illinois waterway August 27 and 28.

Governor Emmerson has announced the appointment of General John V. Clinchin, Chicago, as chairman of the Illinois Athletic commission. The other two members of the board are George F. Getz, well known capitalist, and Fred Gardner, vice president of the I. C. Bank and Trust company, both of Chicago.

Determination Wins

Stick-to-it-iveness counts for more in reaching a goal than native talent. So the tortoise won the race while the swift hare took a nap.

One's Debt to Community

I am of the opinion that my life belongs to the whole community, and as long as I live it is my privilege to do for it whatsoever I can. I want to be thoroughly used up when I die, for the harder I work, the more I live. I rejoice in life for its own sake. Life is no "brief candle" for me. It is a sort of splendid torch which I have got hold of for a moment, and I want to make it burn as brightly as possible before handing it on to future generations.—George Bernard Shaw.

THE DOUBLE CROSS

THE STORY

Jim Stanley, New York business man, orders his desk telephone taken to his home, intending to finish his dictation there. Rollo Waterman, his partner, comes in. Both are in love with Doris Colby. Stanley proposes tossing a coin to determine which shall first propose to Doris. Waterman wins. Nina Morgan, Waterman's secretary and mistress, has overheard his conversation with Stanley and resents Waterman's plan to desert her. Waterman says he is penniless and must make a rich marriage. He urges Nina to tell Doris that Stanley has wronged her (Nina). Nina tells Doris her story, exacting a promise that Doris will not tell the source of her information. Doris is convinced of Stanley's duplicity and is broken-hearted, realizing that it is Stanley she loves. Waterman proposes and Doris accepts him. Stanley accepts the situation, and as a wedding present gives his share of the business to Waterman. He is going to India. Wilson, aware of Waterman's crookedness, leaves his employ. The latter begins to importune Doris for money. Bromfield, the gambler, is pressing Waterman for payment of gambling debts. At Waterman's urging Doris wears her magnificent diamond necklace to the opera. That night it disappears. Doris' father enlists Bromfield's aid in tracing the stones. Stanley returns to New York with an East Indian friend, Swami Ramanara. Doris realizes now that she loves him, and always has. Made desperate by Waterman's conduct she suggests separation or divorce. Waterman refuses to consider either. Stanley calling on Doris, feels all his old love for the girl awakened. He invites her and Waterman to his country home the following Saturday. Tying with the telephone which had been in use in Stanley's old office, the machine reproduces the conversation Waterman had with Nina Morgan when the conspiracy was arranged, and Stanley's eyes are opened.

CHAPTER XI

—13—

Mr. Alexander Colby had the gift of patience. In the last few weeks, however, it had been severely tried in the matter of his daughter's marriage. For, though she had not opened her lips to him upon the subject, he knew perfectly well that the marriage was an irretrievable failure.

He knew where Waterman spent many of his evenings. He also knew quite well the business difficulties in which his son-in-law was involved. He had no doubt whatever that his daughter's husband was upon the brink of a business failure that would not bear too close examination. But Doris had not spoken. Some time, he thought, she must speak. The point was, when? And though Mr. Colby was a patient man, he found himself growing restive.

He had learned the day before from Doris that Stanley had come back and after some thought, at the luncheon hour that day, he had stepped into the vaults of his bank and extracted from his personal deposit box a certain package. This he had taken to his office, and locked up in the little safe that stood behind his desk. "Just as well to have it there," he reflected, "in case—"

On Monday Stanley had returned from India. On Tuesday he had visited his house in the country. On Wednesday morning he called at Mr. Colby's office. The lawyer was just finishing the last of the morning's post when Stanley was announced.

"Hm," he reflected. "Here comes my horse again. Left at the post on his first start—Well, maybe there'll be another race."

He supposed Stanley had come to consult him about some business affairs, as he had frequently acted for him in a legal matter. He welcomed him with a smile and an outstretched hand, rising as he did so.

"Well, my lad, here you are again. eh? Come over here—let me look at you."

He led Stanley to the window and spun him around on his heels. "You look pretty fit—lean, brown, bright-eyed—all that sort of thing!"

"Thank you, sir. Yes, I'm very well indeed. And you?"

"Well and lonesome," replied the lawyer, sitting down again.

"Lonesome?"

"What else would you expect? I've lost Doris. Isn't that enough to make a man lonesome?"

The smile died from Stanley's face. Its disappearance was not lost upon the lawyer. Suddenly all his patience departed. "Jim," he said abruptly, "why the devil didn't Doris marry you?"

This was the last speech in the world that Stanley had expected to hear. It paralyzed his faculties for the moment, but presently he was able to say, "I'll tell you the truth, Mr. Colby, as I see it—I suppose it is because she preferred Rollo."

"Yes," muttered the other, "I suppose that's so—I suppose that must be so. But so far as I am concerned I wish to God you had kidnapped her and taken her with you, screaming, if necessary, to Tibet, or Timbuctoo, or Tierra del Fuego, or any other d—n place where the Watermans cease

from troubling and the weary are at rest."

Stanley took a strong hold upon himself. He was stirred to his depths, but this did not prevent him from seeing with startling clearness that the lawyer was equally moved. But he did not know what to say, and in a moment the elder man controlled himself.

"I'm sorry," he said. "Forget what I've said. It's none of my business yet—maybe it will be some time, but not now. I shouldn't have spoken as I did. I know how close the friendship is between you two."

A sardonic gleam flashed across Stanley's face but still he was silent. "I suppose," resumed the lawyer after a brief silence, "you heard of our great loss?"

"Such as?"

"Such as ancestral jewels of high degree." The lawyer was again his genially ironic self.

"Oh, yes," said Stanley, "I read about it in a newspaper that somebody sent out, I suppose about three months after the theft occurred. I'm ashamed to say that I forgot to say anything about it to Doris when I saw her the other night. Was the matter ever explained?"

"Not publicly," replied Mr. Colby.

Stanley sensed something peculiar in the lawyer's answer, and he asked, "What do you mean—not publicly?"

"I mean, Jim, that I have a definite idea upon the subject."

"I read in the newspaper that the police had declared it to be an inside job."

"The brains of the police," declared Mr. Colby, "are for the most part manufactured by the Portland Cement company. But in this case their conclusions happened to be correct."

"One of the servants?"

"No."

"You interest me."

"I meant to." The eyes of the two men met for an instant, and then the lawyer rose and turned to the little safe that stood behind his desk, swung back the door upon its hinges, opened a drawer, carried it to his desk, and took from it a parcel wrapped in common brown paper and tied carefully with a bit of red twine. He fumbled it a bit—to tell the truth, his fingers shook a little. But in a moment the knot yielded, and the paper was unfolded, revealing a chamois bag. This also the lawyer opened, thrust his hand within, seized the contents, and threw them upon the desk. There lay the Colby necklace!

Stanley stared with his mouth open. Presently he found a cigarette and lit it. He waited, but the lawyer said nothing—merely kept on staring at the jewels. Stanley was the first to speak.

"And why, may I ask," he said, "did you steal these jewels?"

"Don't be an ass," retorted the lawyer. "You know who stole them as well as I do."

"No, I don't."

"Well, if you don't, then you are the ass, not I."

Stanley reflected a moment before he inquired suavely, "Is it possible that you refrain from mentioning the name of the thief because of my long friendship for him?"

The lawyer did not answer. He seized the jewels, thrust them back into the chamois bag, drew the running cord that closed the bag. "Jim," he said, "have you seen my son-in-law since your return?"

"Once."

"And when was that?"

"On Monday evening when I called on Doris."

"See anything unusual about him?"

"I saw that he was drunk."

"That, I regret to say, is not unusual."

Forty-eight hours earlier this announcement would have come as a

shock to Stanley. Now it produced no impression on him whatever. His mind was busy on another tack.

"Mr. Colby," he asked, "has the person who stole these diamonds any notion as to their present whereabouts?"

"None whatever," replied the lawyer promptly.

"Are you sure?"

"Absolutely certain."

The lawyer hitched his chair closer to the one in which Stanley was sitting. "Jim," he said, "I'm going to be frank with you. What I say will grieve and shock you, and perhaps you will be angry with me. Your friendship with my son-in-law is almost proverbial among those who know you both. And yet you know me well. You know that I am not a man to take sudden and violent dislike to any human being, nor a man who forms positive conclusions upon insufficient evidence."

Jim nodded, and Mr. Colby hurried on:

"Now, I am going to say things to you that I have never said to any human being. When my daughter married I made up my mind never to interfere in her marriage in any way, except on her request. I have kept that promise to myself. I have seen

"By This Time I Understand Thoroughly My Son-in-Law's Character and I Know That He's a Rotter."

things going from bad to worse, until now I know that the marriage is a wreck and that Doris' happiness is ruined. By this time I understand thoroughly my son-in-law's character and I know that he's a rotter. He is a libertine, a liar, and a drunkard. He is also a thief. Now," and he glared defiantly at Stanley, "what have you got to say?"

Somewhat to his surprise Stanley murmured only one word, "Nothing."

"Very well, then," continued Mr. Colby. "His public disgrace I can and will prevent for my daughter's sake. She cannot possibly know more than a part of what I have told you. Any affection that she once had for him must long ago have died—yet she has done her best to save him. But she knows by now that she has failed. Yet not one syllable of complaint has passed her lips. This cannot go on much longer. Some time, and the time will not be long, she must come to me for comfort, as she used to do when she was a tiny girl and had fallen down and bumped her little nose. And when she does—" He finished with an expressive gesture.

This time it was Stanley who hitched his chair nearer to the lawyer. He spoke for five minutes with-

out interruption. When he departed a quarter of an hour later, he carried with him the little chamois bag.

Leaving the lawyer's office Stanley walked two blocks south on Broadway. He turned to the left and in the middle of the block turned in and was carried twenty stories up. Issuing from the elevator he walked into his old office and inquired for Mr. Waterman.

"Name, please," said an office boy whom he had never seen before. He gave his name, and was taken directly into his old private office—now Waterman's.

"Here you are," said Waterman gaily, rising and giving him his hand. "Seem like home to you, eh?"

"Yes—yes."

"Always liked your private office the best, so after you'd gone I moved in here. Well, how are you? Hope you're going out to lunch with me?"

"Sorry," said Stanley. "Can't. I've got to go uptown."

"Too bad. How about dinner at the club?"

"Can't make it. You see I've got the Swami more or less on my hands, and until I get him launched I've got to stand by."

"How about tomorrow?"

Stanley swiftly reflected. His visit to Waterman was the last thing he wished for, yet he had made the appointment from design. It was imperative to the success of the course upon which he had now embarked that Waterman and Doris should spend the week end at his home in the country. Everything hung on that. He therefore wished to do everything in his power to make Waterman feel at ease with him. So he answered:

"Yes. I'm free for lunch to-morrow. Anywhere you like."

"Fine," said Waterman. "Make it the Strollers club. Never see anybody there you know. We've got a lot to talk about, and we shan't be interrupted."

"Yes," agreed Stanley. "You're right. We have a lot to talk about. And don't forget," he said, as he turned to go, "you're coming down to the country on Saturday."

"Sure," agreed Waterman promptly. "Wouldn't miss it for anything."

As he spoke he slapped Stanley on the shoulder in his old hearty, friendly way. His hand rested for an instant within six inches of the Colby diamonds!

Thus far, Waterman reflected, the week end party at Stanley's country house had been entirely successful. Waterman had not come upon the visit without some trepidation. So far as Stanley was concerned, it is true, he felt no uneasiness. He had seen nothing in his old friend's manner to alarm him in the least. There were, to be sure, moments when he sensed a difference, but after all, he reflected, they had not seen each other for over a year and, say what you would, absence did change people.

The Watermans had arrived late the previous afternoon by motor from New York. They were welcomed not only by Jim himself, but also by Mrs. Hutchinson, Jim's only sister, who had motored over from her own country house a dozen miles away, to complete the party, at her brother's request.

There had been no opportunity for intimate talk. Stanley had taken care of that. His mind was so filled with the thing he had to do that very night, that he had no wish for a tete-a-tete either with Rollo or with Doris. His main concern was to keep Waterman in blissful unconsciousness of the blow that was about to fall upon him.

Waterman reflected that, after all, it was a good thing for him that Jim had come back. Jim had always been his good fairy—no doubt he would continue to be so.

In another room, just across the wide hall, reflections of a quite different character were at that same moment occupying the mind of Doris. She, too, was dressing for dinner—not with her usual deliberation, but with urgent haste. She felt that she must, in some way, manage to get a few moments alone with Jim. There were certain things that must be said between them. She had in no way altered her point of view regarding her husband, since the day she had asked him to consent to a divorce. Her eyes now fully opened to his character, she had felt only contempt for the transparent efforts he had since then been making to restore himself to her favor. She read his mind all too clearly. And when, upon their return from the country club that afternoon, Waterman had settled himself in her dressing room as if for a friendly chat, she had peremptorily cut him short and dismissed him. And now she was feverishly dressing.

There came a tap on her chamber door, and Mrs. Hutchinson came in. "Sorry to interrupt you," she said, "but I've got to go home at once, and I don't want to go without saying good-by. George has just telephoned that Langdon—that's my eldest boy, you know—is sick in bed."

"Oh," said Doris, "I hope it's nothing serious."

(TO BE CONTINUED.)

Long Sentence Made Matter of Complaint

What is said to be one of the longest single sentences in English on record—a statement of 593 words, covering 56 typewritten lines—was the subject of complaint by counsel in the Court of Appeal, says the London correspondent of the New York Herald Tribune. Analysis of some of the phrases in the average income tax return form is difficult enough, but in the protested instance of circumlocution and ambiguity it was set forth that a Chinese lawyer could not have supplied more redundant or roundabout language to convey his meaning.

The sentence, stretched word to word in one line, would reach approximately 35 feet, and to utter it would be a breathing exercise almost equal

to climbing the whispering gallery in old St. Paul's. The sentence, it was stated to Lord Justices Atkin and Scrutton, appears in the finance act of 1927, and purports to explain "relief in respect of losses in business set up after April 6, 1923."

Newton Admired Crimson

Search in the records of Somerset House has disclosed the complete inventory of the furniture and plenishing of Sir Isaac Newton's house in St. Martin's in the Fields in 1727. The document took the inconvenient form of about fifteen feet of strips of vellum. Sir Isaac's favorite color for hangings was crimson. He had it in most of his rooms, the material being mohair backed with canvas. His taste in furniture ran towards walnut. He held a large private library for that period, and it must have taken up much space, for more than half of the 1,896 books were folios or quartos.

Somebody's Watching

There is no one so obscure but that some one is modeling his life on his pattern.—American Magazine.

The Eyes of Youth

The old historian, Plutarch, when asked what boys should learn, said: "That which they will use when men." The trouble is that men do not use enough what they learned and what they thought and what they hoped as boys. The idealism of youth too quickly fades. Most men are too practical.—Exchange.

FRANKFORT

Louie Krusemark who has an infection in his left hand for the past two weeks, and who has been in the hospital where he underwent an operation, is improving nicely.

Miss Ethel Dammann who is taking a nurses training course at Silver Cross hospital is spending her vacation with her parents, Mr. and Mrs. Henry Dammann.

Mr. and Mrs. Louie Krusemark had as their guests the past week their daughter and family of Chicago.

Miss Marie Stellwagen was hostess to the W. H. M. Club in her home Friday evening in celebration of her 19th birthday. The guests were Lolita Bettenhausen, Lois Baumgartner, Eva Jean Pfaff, Marjorie Baumgartner, Berice Dammann, Marie Scheer, Blanche Heitmann, Glen Koerner, Melvin Schroeder, Albert Krusemark, Floyd Lohring, Leroy Hansen, Chester Pfaff and B. Baumgartner.

Mr. and Mrs. George Minger are spending this week on their farm in Green Garden.

Mrs. George Buck of Green Garden who has been ill for sometime, is slowly improving. Her mother, Mrs. Nagel of Frankfort is staying with her most of the time.

Mrs. George Mitchell returned home Tuesday from the Silver Cross hospital where she underwent an operation two weeks ago. She is improving nicely.

Mr. and Mrs. Thomas McGlashan of Joliet spent a few days on their farm east of town with Mr. and Mrs. Joe Scott.

Miss Laura Dittrich and friend Horton Fahland of Monee called on Miss Florence Woodcock near Andros on Wednesday evening.

Mr. and Mrs. Henry Lohring were Chicago visitors on Sunday.

Mr. and Mrs. Edward Warning and Miss Viola Lankenau left Friday for Savannah, Ga., where they will attend the Mail Carriers convention.

Mrs. Rogers, Mrs. Clemens and Mrs. Henry Hick and daughters, Anna and Amelia of Tinley Park called on Mrs. Lawrence Dittrich on Wednesday.

Harry Balchowsky and niece Toby Balch motored to Michigan last Friday returning Sunday with Edward Balchowsky who has been in a camp there for several weeks.

Mrs. William Lankenau entertained the afternoon pinocle club in her home Friday afternoon. Pinocle was played at three tables and prizes were awarded to Mrs. Frank Cheney and Mrs. Homer Smith. Refreshments were served by the hostess.

Mr. and Mrs. Ted Clark, Mrs. Floyd Clark and son Jack of Chicago were week end guests in the home of Mr. and Mrs. John Clark.

Mrs. Thulin of Chicago visited with relatives and friends the past week.

Mr. and Mrs. Lawrence Dittrich spent Sunday evening with Mr. and Mrs. Edward Sippel at Andros.

The Frankfort Home Improvement club held a social at the home of Mr. and Mrs. William Hansen east of town Tuesday evening by entertaining the club members and their families. Games were played and refreshments were served.

Mrs. Louis Harms is ill in her home.

Mr. and Mrs. Emil Ludwig and daughter Lily of Lockport were guests in the home of the latter's sister Mrs. Lawrence Dittrich and family. Mr. and Mrs. Ernest Pilz and family of Lockport were guests also in the Dittrich home the past week.

Jeanett Heusner who has been ill the past week is able to be out again.

Mrs. Wallace Weichbrodt who has been ill the past week is better.

The Ladies Aid society of St. Peter's Evangelical church will hold their "coffee" in the church parlors, Thursday afternoon and evening, August 29.

Mr. Wilbur Meyers of Los Angeles Calif. is expecting to arrive in Frankfort soon to join his wife who has been in the home of her parents, Mr. and Mrs. Conrad Sippel for two months, returning with her father who had spent nine months in Calif. with his daughters Mr. Henry Koerner and Mrs. Meyers.

Mr. Charles Fralich is serving on the jury this week.

Robert Burmeister of Chicago was visiting in the home of his uncle and aunt, Mr. and Mrs. Conrad Heisner the past week.

MON. LABOR DAY, SEPT. 2 BIG ODD FELLOWS PICNIC!

His Instructions

The broker was very sick, and at times delirious. In one of his lucid moments he asked the nurse what the last readings had shown his temperature to be. "One hundred and one," she said. "Good," said the patient. "When it gets to 101½, sell."

American Swedish Colony

Swedes established a colony in Delaware as early as 1638. They erected a fort on Christian creek and named the country New Sweden. They subsequently established a military post on the island of Tinicum, below Philadelphia.

A TENNIS DRESS

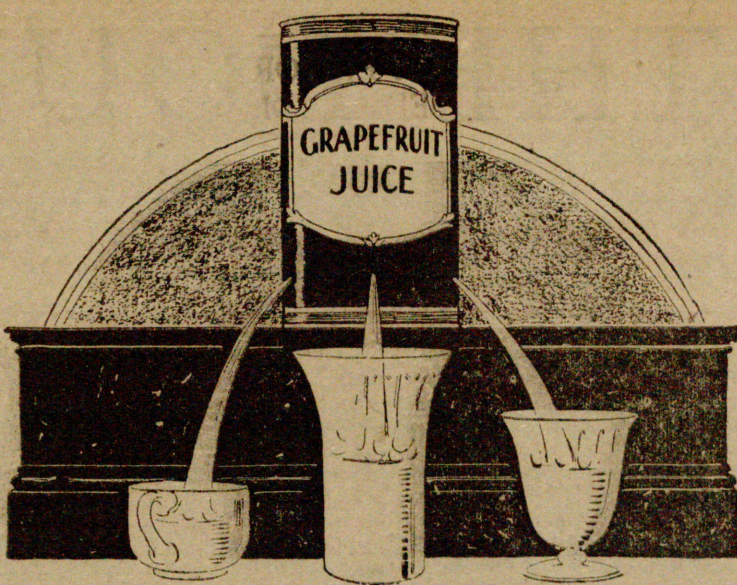

Through the use of diagonal bands and part tailored bow, the dressmaker's touch has been given to the creation. The very latest thing in tennis apparel is this sun-tan back frock of white Rayon pique. (Herbert New York)

Folly of Fashion

"So great was the weight of the elaborately padded garments worn by men in England during the reign of Henry the Eighth," points out Fredrick Tisdale in an article in Liberty. "that a bench was built along the house of parliament so the fatigued dancers could rest their matted thighs."

Frosty Summer Drinks

FRUIT drinks have now become a regular and most welcome part of the summer. One of the most delectable ingredients of these frosty concoctions is grapefruit juice put up in cans which is here to stay because it's so good. One proof of this permanence is that a company in Florida which already operates two large grapefruit canneries at Eagle Lake and Lake Alfred is now planning to build the largest grapefruit cannery in the world at Winter Haven, but the best way to convince yourself of it is to try out some of the following:

Fruit Combinations

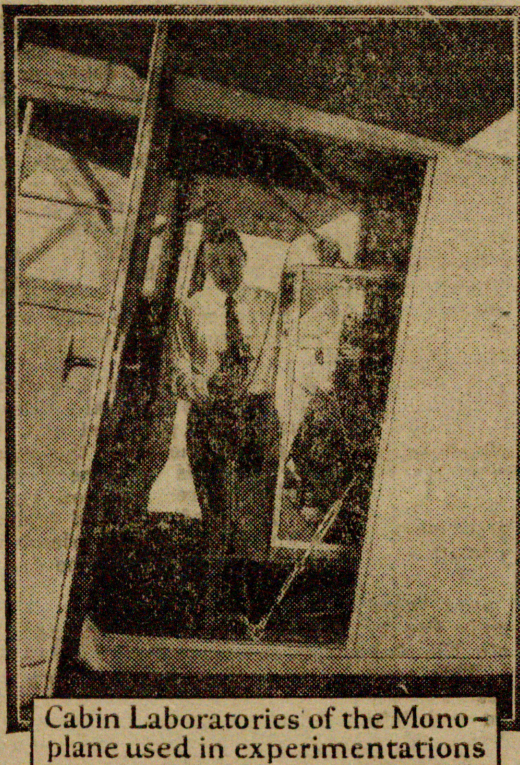

Havana Special: Mix one ten or eleven-ounce can of grapefruit with one cup of pineapple syrup, and add one-fourth cup sugar and one cup

water which have been boiled together and then cooled. Chill, add a bottle of white rock, and serve ice cold in punch glasses. This recipe will make ten glasses.

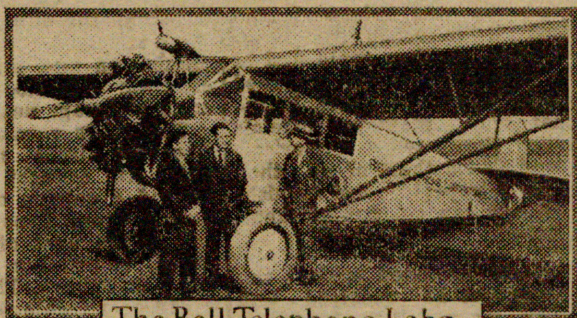

Citric Delight: Boil one-fourth cup sugar and one cup water five minutes, cool and add one ten- or eleven-ounce can of grapefruit juice, one cup orange juice, one-fourth cup lemon juice and four cups of cold water (charged if desired.) This will fill fifteen punch glasses.

Cherry Rickey: Boil one-fourth cup sugar and one cup water, cool and add one ten- or eleven-ounce can of grapefruit juice, the juice from a No. 2 can of sour pitted cherries and one-fourth cup Maraschino cherry juice. Chill, add a bottle of white rock and serve ice cold. Twelve punch glasses.

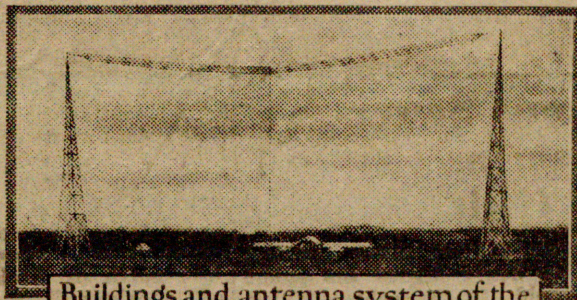

Communication for Plane Navigation Studied by Telephone Engineers

Cabin Laboratories of the Monoplane used in experiments

The Bell Telephone Laboratories Monoplane

Buildings and antenna system of the Bell Laboratories' experimental station at Whippany, N.J.

Specialty Equipped Airplane a Flying Radio Laboratory Operated in Conjunction With Whippany, N. J., Experimental Station.

By C. E. DEAN

ONE indication of the importance of radio in the progress of aviation is the fact that the Bell Telephone Laboratories have initiated a program of research and development for the perfection of radio methods and apparatus for aircraft. With the continued advance of aviation, flying on schedule, in accordance with announced times, will become increasingly necessary and means for combating bad weather will be of greatest importance. At such times land-markers and lights cannot be seen, and dependence must be placed on instruments and the radio. For this reason, radio will be an important means for maintaining airplane schedules in the future.

In order to carry out this research and development work, the Bell Laboratories have purchased an airplane and equipped it as a flying radio laboratory. It is now operating in conjunction with the powerful experimental radio station at Whippany, N. J. Several lines of investigation have been begun. In this work the engineers will have the advantage of experience with radio developments during the war and also the results obtained with radio extensions of the regular telephone system, such as the transatlantic service.

A general study of radio transmission between airplanes and the ground is the purpose of one line of investigation. With the apparatus in the airplane exact measurements can be made of the efficiency of radio transmission from the Whippany station at various altitudes, distances and directions, at various times of the day and year, and under various weather conditions. This work will yield results important in all classes of airplane radio, whether telephone, telegraph or radio compass signals.

Discussing the future of radio in aeronautics, Edward B. Craft, Executive Vice President of the Bell Telephone Laboratories, writing in a recent number of "Aviation," pointed out that undoubtedly one of the great services of radio will be the broadcasting of information

dealing with weather conditions and other matters of general interest to all planes in the air. For this work, radio telephone equipment is much superior to radio telegraph because of the great amount of training required to produce a good telegraph operator. In addition to such broadcasting for the benefit of all planes in the air, radio beacons, by which location and direction to fly may be obtained, will be another valuable aid to all aviators.

Two-Way Communication

However, for many purposes, Mr. Craft continued, two-way communication is very desirable. With this a pilot in the air can speak directly with a meteorologist on the ground and plan his route to the destination. In case he is instructed to land at another field, due to fog conditions, he can confirm the receipt of instructions. For these communications, in the same way as for one-way broadcasting, the radio telephone is far superior to the radio telegraph as a practical means of communication. On account of the limited number of channels in the intermediate portion of the radio band, it appears that the only place where there is prospect of a sufficient number of channels for this purpose is in the short wave region.

The first step of the telephone engineers in accomplishing short wave two-way radiotelephony was to conduct a field survey along one of the most extensive airways of the country. In the light of these findings they determined the best types of apparatus to build. The construction of this equipment is now in progress and its practical trial will soon take place.

Another likely need for two-way communication is in the direction of traffic at busy landing fields where many planes will be taking off and arriving. Here the airport manager may have a radio telephone and instruct planes by radio when to alight and depart, and what parts of the field to use.

For long flights of exploration or across oceans, the disadvantage of the radio telegraph are offset by the fact that telegraph apparatus of a given power will carry further than telephone apparatus. So it is

probable that on such long cruises, one or more expert telegraph operators will be carried for the sole duty of maintaining communication and taking radio compass observations.

Aid From Wire Communication

Besides radio, wire communication can render important aid to aviation. One way is a suitable rapid method by which a meteorologist can obtain, in a few minutes, weather reports by telephone or telegraph from a large number of distant points. The telegraph has long been used for this purpose by the United States Weather Bureau. More recently, rapid telephone methods have been developed and are now in experimental use. Another aid which wire communication can render is in providing connections between the various landing fields along a given airway. For this purpose the telephone typewriter, which prints out its messages at all receiving stations without requiring the attention of a clerk and does not require skill for use, is especially adapted. By means of this, planes can be dispatched, progress reported, the number of passengers and amount of baggage aboard reported to the next landing field, administrative orders as to particular pilots and particular planes can be transmitted, etc.

Another aid which wire transmission renders is at the emergency landing fields, which are located at intervals along our airways. Here telephones are provided ready to use. A pilot descending at such an emergency field goes immediately to the telephone and reports his difficulty without loss of time. Upon receipt of this information, a relieving plane can be promptly dispatched to take over the passengers and baggage for the completion of the journey.

In short, the rapid development of both radio and aviation and their present trend make it clear that in the future radio will be an important means of maintaining reliable airplane operation. Wire communication also will render important assistance in the successful operation of airways.

Mokena Loses To Wheatland Sunday With 20 to 14 Score

Mokena got trimmed Sunday with a score of 20 to 14 in their game with the Wheatland time. Following is the report of the game play by WHEATLAND:

FIRST INNING—H. Graver rolled one down the third base line that O. Benson couldn't reach and went to second on a passed ball. Smiley smacked one thru the box and H. Graver went to third. Smiley went to second on the next pitched ball. Bundy grounded out to McGovney and H. Graver scored. A. Graver grounded out to Kohl. E. Graver grounded out to O. Benson. 1 run, 2 hits, no errors.

MOKENA—A. Benson walked. Bennett rapped one thru the box to centerfield for a single, but got all the way around to third when Bundy made a bum throw to third to get Art Benson and Benson got home. Sorenson flied to left field, near the line, and Bennett scored. R. Graver made a nice grab of McGovney's grounder off first base and put him out. Sorenson raced in on a passed ball. Homerding walked and reached second when Warthen couldn't get away from behind Kohl to make the throw, and he scored when Kohl rapped to right field. Smiley dropped Marti's foul fly outside third base line, but Marti was called out on strikes. O. Benson grounded out to R. Graver down the first base line. 4 runs, 3 hits, one error.

SECOND INNING: WHEATLAND—R. Graver struck out. Suiesoldt struck out. Pennington grounded out to Sorenson. No runs, no hits, no errors.

MOKENA—Schuldt lined to center and the ball bounced over Bundy's head for a triple. Art Benson bounced one in front of the plate that Warthen couldn't get hold of in time to throw him out at first, and he stole second. Bennett struck out. R. Graver took Sorenson's foul fly outside first base line. Schuldt scored on a passed ball. Art Benson scored when Suiesoldt missed E. Graver's

throw from the box. McGovney singled to center and went to second on a passed ball. Homerding's grounder bounced over Smiley's head and McGovney scored. Kohl was safe on Suiesoldt's error and Homerding went to third. Kohl went down to second on the next pitched ball, but Suiesoldt threw out Marti. 3 runs, 4 hits, 2 errors.

THIRD INNING: WHEATLAND—Warthen tripled to right. H. Graver walked and went to second on the next pitch. Sorenson dropped Smiley's high infield fly, (bases loaded) Bundy rapped one past first and Bennett made a nice stop of Art Benson's throw home on the first bounce. Warthen scoring. A. Graver flied to Homerding and H. Graver scored on the throw in. E. Graver grounded out to O. Benson and Benson tagged Smiley. R. Graver burned one down to O. Benson and Suiesoldt walked, forcing in a run (Bundy). Pennington grounded to O. Benson and E. Graver scored. Warthen grounded out to O. Benson. 4 runs, 4 hits, 1 error.

MOKENA—O. Benson flied to E. Graver. Schuldt tripled to left center. Art Benson struck out. Bennett struck out. No runs, 1 hit no errors.

FOURTH INNING: WHEATLAND—H. Graver doubled to left, near the line, and scored on Smiley's double to left. Bundy grounded out to Sorenson and Smiley went to third. A. Graver went to second on Kohl's error and Smiley scored. E. Graver was safe on O. Benson's throw over first. Pennington singled to center and went to second on the next pitch. McGovney made a good catch of Warthe's foul fly off first base. H. Graver hit to Schuldt and Schuldt made a bum peg to first, but McGovney picked up the ball and tagged the runner out. 5 runs, 6 hits, 2 errors.

MOKENA—McGovney was safe on H. Graver's error and stole second. Homerding walked. Kohl tripled and McGovney and Homer-

ding scored. Marti grounded to Graver and Kohl scored. Benson walked and Schuldt got hit. A. Benson lined to R. Graver. Three runs, one hit no errors.

FIFTH INNING

WHEATLAND—Smiley struck out. Homerding made a pretty catch of Bandy's fly after a long run. A. Graver grounded out to Schuldt. No runs, no hits, no errors.

MOKENA—Bennett walked and went to second on a passed ball. Sorenson grounded out to E. Graver. McGovney grounded out to R. Graver. Homerding grounded out to Smiley. No runs, no hits, no errors.

SIXTH INNING

WHEATLAND—E. Graver grounded out O. Benson. R. Graver grounded out to O. Benson. Weinholdt struck out. No runs, no hits, no errors.

MOKENA—Kohl doubled. Marti singled to center and Kohl scored. Marti going to second on the throw to the plate. G. Pennington went in to pitch for Wheatland. Marti took third on a passed ball. O. Benson was safe on Smiley's error and Marti scored. Benson went to second on a passed ball E. Graver dropped Schuldt's fly and Benson was caught between second and third, but he scored when Weinholdt dropped the throw from Smiley. Knudson struck out. Bennett struck out. Schuldt scored on a passed ball. Sorenson was safe on H. Graver's error. Sorenson stole second. McGovney struck out. Four runs, two hits, three errors.

SEVENTH INNING

WHEATLAND—Pennington tripled. Warthen lifted one back of second and Pennington scored. H. Graver flied out to Knudson. Knudson threw wild to McGovney, trying to get Warthen off first, but Bennett got the throw and threw to Sorenson, who got Warthen at second. Smiley tripled to center. Bundy hit to center, and Smiley scored. A. Graver singled to right. E. Graver doubled and stole third. A. Graver scored. R. Graver got a home run. Homerding went in to pitch for Mokena. Weinholdt walked. Kohl threw out G. Pennington. Six runs, seven hits, one error.

MOKENA—Homerding's grounder to Weinholdt was too fast to handle. Kohl walked. Marti struck out. O. Benson was safe on Warthen's error. (bases loaded) Schuldt grounded to G. Pennington, forcing Homerding at the plate, and Schuldt was doubled at first. No runs, one hit, one error.

EIGHTH INNING

WHEATLAND—B. Pennington struck out. H. Graver flied to C. Benson. Schuldt made a beautiful running catch of Smiley's short fly to left. No runs, no hits, no errors.

MOKENA—Knudson flied out to Warthen in right field. G. Pennington threw out Bennett. Weinholdt threw out Sorenson. No runs, no hits no errors.

NINTH INNING

WHEATLAND—Bundy tripled to center. A. Graver was safe on Kohl's error. Bundy scoring. E. Graver was safe on O. Benson's error. R. Graver struck out. Weinholdt tripled. A. Graver and E. Graver scoring. G. Pennington flied out to Knudson. Weinholdt scoring. Warthen struck out. Four runs, two hits, two errors.

MOKENA—Smiley threw out McGovney. Homerding struck out. G. Pennington threw out Kohl. No runs no hits, no errors.

Practical Dishes For Busy Days

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
H. J. Heinz Company

We suggest these recipes for easily-prepared, savory dishes for use on busy days when dinner must be prepared at the last minute. When you have used them you will think that they are good dishes for any day!

Chili Con Carne—Brown 1 pound ground beef in skillet with 2 tablespoons fat and finely chopped onion. Season with salt and pepper, add 1 medium can Oven Baked Red Kidney Beans. Simmer for few minutes, add 1 small can Tomato Soup. Add ½ teaspoon Chili powder, cook for ten minutes. Serve with boiled or baked potatoes. (Some people prefer to omit the Chili powder).

Sausages with Kidney Beans—Brown Sausage in a skillet. Pour over it 1 can Kidney Beans and simmer or bake in slow oven for ½ hour. Place beans in center of hot platter, surround with sausages and garnish with sprigs of parsley.

Ham with Ketchup Sauce—Brown thick slice of ham in skillet, place in casserole, cover with the following sauce:

¼ cup Tomato Ketchup or Chili Sauce; ½ cup cold water, 1 tablespoon Pure Vinegar; 2 teaspoons flour; 1 teaspoon sugar; ½ teaspoon Prepared Mustard.

Bake in a moderate oven or simmer until tender (about ½ hour).

Creamed Ham Patties—1½ cups diced cold cooked ham; 2 tablespoons Stuffed Spanish Olives chopped; 2 tablespoons butter, 3 tablespoons flour; 1½ cups milk; pepper, ½ teaspoon Worcestershire sauce; 1 loaf bread.

Melt butter in a saucepan, add flour and stir until well blended. Add ham and seasonings to cream sauce. Cut bread in 6 slices, trim off crusts, cut in squares and hollow out center. Toast boxes thus

made, fill with the creamed ham. Garnish with parsley and serve. Cold pork or veal may be prepared in the same way.

Everyday Chop Suey—

1 pound ground beef; 2 onions; 2 green peppers; 1 cup water; 3 tablespoons butter; 1 teaspoon salt; ¼ teaspoon pepper; 1 medium can Cooked Spaghetti in Tomato Sauce with Cheese.

In a skillet with butter, fry chopped onions and green pepper, until slightly brown. Add chopped meat and fry until meat browns. Add water, season with salt and pepper, simmer for 10 minutes. Add Spaghetti, allow to boil and serve.

Boston Rolls—

1 can Baked Beans, 1 cup grated cheese; 1 tablespoon chopped onion; 1 cup bread crumbs; ¼ cup milk.

Drain sauce from beans, chop them, add crumbs, onion, cheese, salt to taste, and enough milk to moisten. Form into small cakes or rolls, place in buttered baking dish in moderate oven for 30 minutes. Baste several times with one cup boiling water to which has been added ¼ cup Tomato Ketchup. This dish makes an excellent substitute for meat.

YOUNG OFFICIALS IN YOUTHFUL INDUSTRY

The announcement the other day of the list of officers for the Radio-Victor Corporation of America, just formed to handle the sales and distribution of the products of the Radio Corporation and the Victor Talking Machine Company, shows a preponderance of youthful officials in this company which combines the interests of two of the biggest and youngest industries.

David Sarnoff, executive vice-president of the Radio Corporation, who is chairman of the Board of Radio-Victor, is 38 years old. Incidentally, he climbed to his present high position from a start as a messenger boy. An average of well under middle age is maintained by the other officials: J. L. Ray, President; I. E. Lambert, Vice-President and General Counsel; A. E. Reoch, Vice-President in charge of Production, Service and Traffic; H. C. Grubb's, Vice-President of the Victor Talking Machine Division; Quinton Adams, Vice-President of the Engineering Products Division; Meade Brunet, Vice-President of the Radiotron Division, E. A. Nicholas, Vice-President of the Radiola Division; E. C. Grimley, Treasurer and Comptroller, and Francis S. Kane, Secretary.

RADIO ENTHUSIASTS WELCOME NEW TUBES

Radio amateurs have shown a quick response to the new rugged rectifier Radiotron with a low and constant voltage drop which has been put on the market by the Radio Corporation of America. The new tube, Radiotron UX-245, is of the hot-cathode, mercury vapor type, and the makers assert it is establishing a new standard of performance for the amateur transmitter operating with a rectified plate supply.

A four electrode, screen grid tube, with new features.

It is ample in current capacity and, in half or full wave circuit connections, is especially suited for supplying the transmitter with stable rectified plate voltage—key up or key down. It operates at relatively low temperature, and no starting mechanism is required.

Two other interesting new tubes which just have been introduced by the Radio Corporation are Radiotron UX-245 and Radiotron UY-224. Radiotron UX-245 is a power amplifier tube for supplying large undistorted output to the loud speaker. It is capable of delivering a power output equal to that of the UX-210, but at a plate voltage not exceeding 250 volts. The tube can be used only with apparatus especially designed for it and is intended for use in the last audio amplifying stage of power line operated sets which supply not more than 2.5 volts to the last audio socket, as well as proper grid and plate voltages. The filament is of the coated ribbon type, which assures great strength and high emission.

Radiotron UY-224 is a four electrode, screen grid amplifier tube embodying a 2.5 volt heater element which permits operation from alternating current. It is recommended for use primarily as a radio frequency amplifier in circuits especially designed for it, but it may be used also in special circuits as a detector or as an audio frequency amplifier. The fourth electrode, the screen, in the new UY-224 makes possible the attainment of very high and stable amplification per stage.

FELLOWSHIPS FOR RADIO LAW WORK

A striking illustration of the rapid growth in the radio field is seen in the recent announcement by the Radio Corporation of America of three fellowships of \$1,500 each at Columbia University Law School to provide for an additional year of study of the intricacies of Federal laws, especially those pertaining to radio problems. The board of trustees at the university has approved and the fellows will be chosen soon to start work next Fall. The awards are offered for one year only as an experiment.

Inquire George Rowden, Custodian

Her Recognition

Small Elizabeth and her mother were walking down the street when they saw an urchin approaching them. Elizabeth stuck out her tongue. When they had gone on, her mother inquired "Why did you stick out your tongue at that little boy we just passed?" There was a pause while Elizabeth considered. "Why?" she replied, at length. "Why, mother, to show him I recognized him!"

INTRIGUING LACE COLLARS; KNITTED ENSEMBLE FOR FALL

THAT persistent call of the feminine for accessories of lovely lace and lingerie is to be satisfied to the fullest this season. The new fall frocks simply revel in those ever-coveted touches of lace, which so glorify one's appearance.

All sorts of oddly shaped collars and capes, scarfs, cuffs, jabots and what not have received the overwhelming endorsement of Paris couturiers. Wherefore it follows that the quest of fashionable women leads more directly to neckwear displays, than it has for many a moon.

The lover of dainty lingerie touches may well prepare for a feast of good

succeeded in capturing all the intriguing details known to couturiere art, and to the wonder and admiration of the fashionable world, is interpreting them to a point of fascination via knitted machinery which seems almost human in its achievements.

Speaking of the new knitted ensembles for fall, their colorings were never more alluring—each costume a color masterpiece! Browns are played in every key. Tobacco, chocolate, coffee and the lighter tones are interworked with all the radiant autumn yellows, tangerine shades, gold and rose tints.

The very smart Paris black-and-

Lace Collars New Fashion Note.

things, for there's everything to choose from ranging from chic collar and cuff sets to the most elaborate and unique lace fancies.

Perhaps interest centers most about the graceful lace shoulder capes, such as is shown at the top in this group. This winsome accessory imparts a magic touch of beauty to even the simplest frock. It is made of a fine all-over patterning bordered with exquisite Alencon lace.

Embroidered ecru georgette finished about with Alencon lace describes the model below to the left. It is a noticeable fact that the majority of this season's lace fantasies are in ecru and egg-shell tints rather than pure white.

Favor for fichu lace effects is expressed with enthusiasm. The pretty fichu-like collar in the picture is also of all-over and Alencon lace.

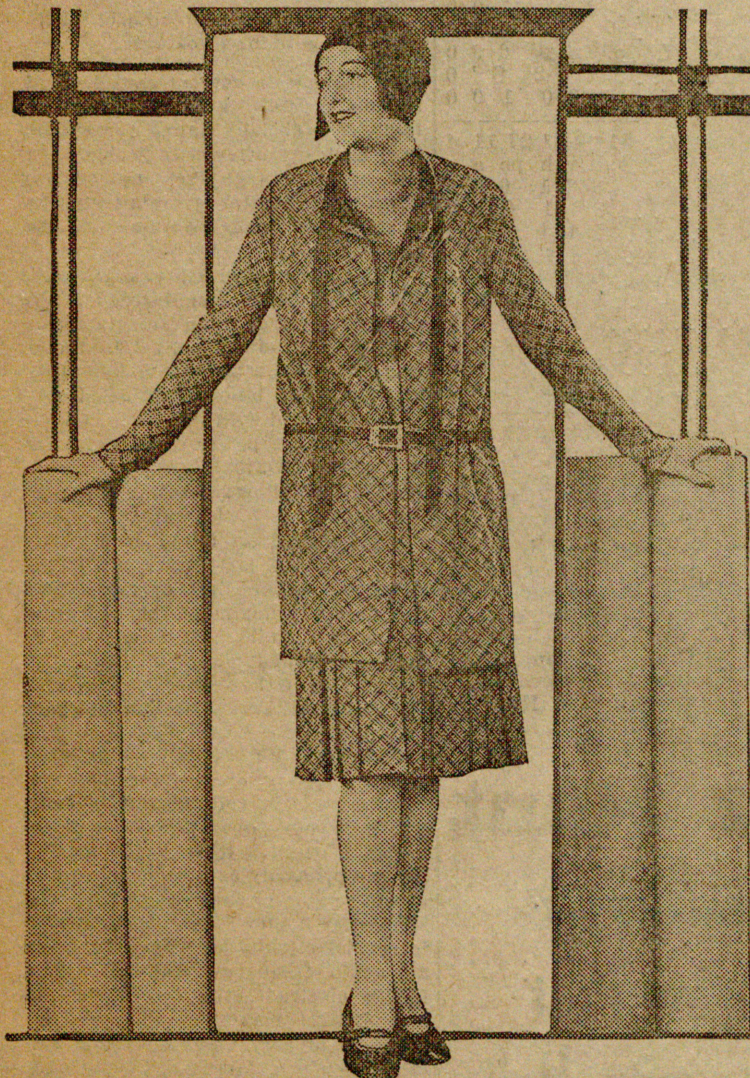

Jabots and tabs are often artfully introduced in connection with lingerie collars. The adoption of Peter Pan lines for the collar is often remarked

white vogue is reflected in the knitted realm with flattering results. The sports ensemble in the lower picture is fashioned of a black-and-white knitted fabric. With consummate art the colorist complements this black-and-white plaited effect with a blouse of rose-colored jersey. And if you wish to vary the program substitute for this rose-hued slipover one in pale blue for the alliance of "baby blue" with black or black and white is one of the promised color delights for fall.

The length of the coat for this costume invites comment, for it establishes a new trend—that of the coat which is not short, neither is it unduly long.

Fancy jersey cloth is conspicuously featured in advance modes, not only gay printed modernistic patternings, likewise plaids and checks, but very cunning flowery prints are finding their way into the knitted realm.

Much embroidery is being lavished on the new jersey frocks and in con-

Black and White Ensemble.

In connection with fanciful jabots of lace and the effect is very youthful.

Cleverly designed collars and cuffs of colorful georgette with emphasis placed on novelty for the cuffs, make up a goodly percentage of the season's accessories.

All signs point to a most outstanding knitted season. A baffling thing about modern knitted apparel is that that which is knitted does not always appear as if knitted. One has to look twice and sometimes oftener to be certain whether this or that is really knitted, or whether it has been stylized of wool-and-warf fabric.

Then, too, the knitted artificer has

nection with jersey ensembles. The angora embroidered jersey blouse is a striking new item.

And the jersey peasant frocks, all smocked and embroidered, and exploiting a wealth of color are sure to prove a lure to youth. Of course, the knitted jersey of which these are made is just as dainty and lightweight as any silk or wool fabric and it smocks beautifully. There's no reason why the ambitious girl of limited means should not buy a few yards of jersey and fashion one of these embroidered and smocked dresses at great saving.

"Make up your mind that you will accomplish in a thorough and capable manner what needs to be accomplished, and stick to it until you succeed. I wish, I can, I will—these are the three trumpet notes to victory."

COOKING VEGETABLES

Caroline B. King, culinary expert, who has been one of the investigators in the study of proper cooking and seasoning of vegetables, says about the use of sugar in cookery: "Care and discrimination must be observed in adding sugar, and we should keep in mind the fact that it is used not primarily for its sweetening qualities, but to intensify and restore the vegetable's natural flavor." This holds for fresh, canned and dried vegetables. The following are some recipes recommended:

Spinach Hainault.—Clean spinach well and cook for ten minutes in as little water as possible; usually enough will cling to the leaves after they have been washed. Chop fine and drain well. Fry three or four thin slices of bacon, cut in small pieces and add to the spinach. To the fat in the pan add one tablespoonful of flour, one teaspoonful of sugar, one and one-quarter cupfuls of water. Cook until thick and pour over a quart of the cooked spinach. Stir lightly and serve. Use the liquor from the spinach for the water, to save all the minerals possible.

Fresh Peas and Scallions.—Put one quart of shelled peas in boiling water and cook uncovered 20 minutes. At the same time stew a dozen scallions cut in two-inch pieces, in a tablespoonful of chicken fat or butter. Mix the drained peas and dust lightly with flour. Stew until tender, adding some of the water in which the peas were cooked.

Carottes a la Bourguignonne.—Cut 12 medium-sized carrots into 2-inch lengths. Cook until tender in salted water, to which a teaspoonful of sugar has been added. In the meantime, cook two chopped onions in melted butter until lightly browned. Mix with the carrots and dust with flour. Season with salt and pepper. When the flour is well browned add one cupful of soup stock. Cook gently for ten minutes and serve hot.

Cherry and Pineapple Conserve.—Measure four quarts of pitted cherries. Shred one medium sized pineapple. Weigh the fruit together and allow an equal amount of sugar. Cook the fruit and sugar for three-quarters of an hour after reaching the boiling point. Allow the marmalade to set in the sun for a day. Now pour into glasses and seal with paraffin.

Simple Desserts for Summer

One of the easiest desserts to prepare and one that takes but five minutes of time, is custard. Cooked in cups set in boiling water, the custard will be creamy and delicious with a few minutes cooking on the

range or in the oven. To one pint of milk, use two good-sized eggs, one-third of a cupful of sugar and a fourth teaspoonful of nutmeg. "Cinnamon or any other spice liked may be used for flavoring. Beat the eggs slightly, add the sugar, milk, a pinch of salt and the spice. Pour into good-sized custard cups and cook until when tried with a knife thrust down through the center, it will come out clean. Remove at once from the heat and the hot water place in ice water until cool, then near the ice where they will become cold. Serve with a spoonful of whipped cream, freshly grated coconut or plain as one wishes. This dessert is one that may be given freely to young and old, so it is an especially good one to serve often.

Tapioca in various guises is another well liked and simple dessert. If the instant tapioca is used, take one third of a cupful, add water to cover well and cook until it is transparent, adding more water if needed. It should be just thick enough to pour. Butter a baking dish, put in a layer of the tapioca which has been slightly salted and then add a layer of any kind of fruit, fresh or canned. Apples are especially good. Use sugar with care if the fruit is canned. Cover with sugar and dot with butter and bake until the fruit is done and the top brown. When serving apple add nutmeg or cinnamon for flavor and cover the top of the dish with apples cut in eighths.

Prune Jelly With Almonds.—Prepare a lemon jelly using a package of flavored gelatin, cover with a pint of boiling water or any fruit juice at hand; add lemon juice if the mixture is too sweet. Take prunes that have been soaked overnight and stewed gently until soft in the same water, using no sugar. Pour the jelly into cups to cover the bottom; when stiff drop in two or three prunes and a few blanched and shredded almonds. If carefully done the fruit will be in the center of the mold. Add more jelly after the prunes are added and set away to chill. Serve with a thin custard or with cream.

FLAVOR that tempts you to eat the BRAN You NEED

That's why millions find it a help
against constipation

Here's the story in a nutshell of Post's Bran Flakes. You need the bulk in bran to round out your diet and safeguard you against constipation. Post's Bran Flakes gives you the needed bulk—and adds a wholesome delicious flavor to tempt you to eat the bran... In millions of homes this is already a familiar story, for Post's Bran Flakes is the most popular of bran cereals. If you haven't tried it, why don't you? Eat it every morning for the next two weeks with milk or cream, or with fruits. Serve it right out of the package. And try the delicious muffin and bread recipes. See how good to eat Post's Bran Flakes is—how effective.

Ordinary cases of constipation, associated with too little bulk in the diet, should yield to Post's Bran Flakes. If your case is abnormal, consult a competent physician at once and follow his advice.

Insects Borne by Wind

Travel Long Distances

The race is not always to the strong, at least not in the case of insects. This has been determined by the use of an insect trap carried on an airplane operated by the Department of Agriculture. "So far, it seems that the stronger flyers, although influenced by the air current to a certain extent in their directions of travel, are able to confine themselves to comparatively low altitudes and have rather definite control over their directions of travel," says the report. "The weaker flyers, however, are not so successful in offsetting air currents, and apparently many of them are carried absolutely as the wind takes them. Species which never before have been suspected of being wind-borne have been caught at great elevations." As uncomfortable as this may be to the insect, it gives him, as a race, a considerable advantage over his stronger cousins in his fight against the persistent efforts of the government scientists and private farmers to exterminate him.

Fines Returned to Speeders

If you were fined for speeding, knew you were guilty, and were just succeeding in trying to forget it, then received a letter of apology and the amount of the fine from the government, how would you feel? That is what happened to a number of speeders in England recently. Scotland Yard had caught them in a speed trap and fined them. Later officials found that the trap was five yards shorter than it should be. Even allowing for the error the autoists were still guilty of speeding, but the British home office decided to take the sporting attitude, return the fines, and send letters of apology.

Rich Deposit of Rare Ore

What is declared to be the only known commercial deposit of brucite, a rare mineral that can be used where other magnesium compounds are now employed, has been discovered and opened to some extent near Lunenburg, Nev., says Popular Mechanics Magazine. A prospector accidentally stumbled across the ore and at first had no idea of its character or its value. He had samples analyzed and the findings were that the deposit may yield a fortune for the discoverer.

FOR WORLD BANK

The opening gun in a campaign by leading bankers of America to force American participation in the newly formed international bank for the handling of the German reparations settlements was fired by Thomas W. Lamont of New York. He declared the proposed bank will serve as a permanent institution to stabilize world credit and expand world trade.—(Herbert)

Slaves Were Shaved

A clean-shaven face in the East was originally a sign of servitude. Old pictures show kings and conquerors heavily bearded and with long hair, while their slaves and captives are clean-shaven and close-cropped. The Greeks and the Romans later discarded "face fungus," as it gave their enemies a hand-hold in the close fighting, which was, of course, the rule in those days.

MOKENA

Ernest Tonn was stricken with a sudden attack of appendicitis Sunday morning and was later operated on at the Silver Cross hospital, Joliet and is convalescing nicely.

Mrs. Albert Maue visited with Mokena relatives and friends this week.

Mr. and Mrs. E. P. Krapp had as their guests the past week, Dr. and Mrs. Brenner and daughter Pauline of Pasadena, California. Dr. M. Ruge and son and daughter of Valparaiso, Indiana, also Miss Clara Ruge of Valparaiso.

A mystery drama "The Dust of the Earth" will be presented at the St. John Evangelical church parlors Friday, September 6th at 8 p. m. standard time under the auspices of the Ladies Aid Society. Following is the cast of characters:

David Moore, Harry Sproat, Susan Moore, his wife, Bessie Sproat, Elizabeth, their daughter, Eleanor Sabin, Jerv, their son, Earl Rapson, Rev. Dr. Templeton, Howard Spiess, Miss Arabella, the village gossip, Agnes Haley, John Ryder, Ted Sproat, Wandering Tom, a mystery, "Dick" Cutler, Old Mose, his servant Ralph Rapson, Nell, The Dust of the Earth, Iva Gillett.

Mrs. Charles Erickson is quite ill in her home on Wolf Road.

Henry Laasch of Orland has moved into the old Marti place on Wolf road. He recently purchased this property.

CARD OF THANKS

We extend our heartfelt thanks to all our neighbors and friends for their many expressions of kindness and sympathy shown us during the illness and death of our beloved mother. We also thank Rev. Wm. Kreis of Dolton and Rev. W. J. Cramer for their comforting words, the singers, and those who sent the beautiful floral tributes, also those who so kindly donated the use of their cars. We especially wish to thank our friend Don C. Hall, Jr., for his splendid help in our hour of need.

WM. SEMMLER AND FAMILY

MOKENA M. E. CHURCH
Rev. Harold Sandall, Pastor
The Rev. and Mrs. Beatty send greetings to Mokena friends by way of Mrs. Cooper and Eleanor Hostert members of our Church school, who visited at the Fourth Street Church at St. Charles, Mo., where Rev. Mr. Beatty is pastor.

The Ladies Aid will hold their bazaar sale, Saturday, August 24 at Mr. McGovney's office.

The last Quarterly Conference of the year will be held on Sunday morning, Sept. 8 Dr. L. L. Hammit of DeKalb for many years a successful pastor and now serving in the capacity of Superintendent of the Joliet-Dixon District will be present to conduct the morning services. Watch for further announcements.

Next Sunday evening the pastor will speak on the topic "Where the Paths of the People Meet". You are welcome!

Infectious Diseases

The Public Health service says that extensive investigations and surveys made by the medical authorities have shown that the prevalence of infectious diseases among civilized nations is infinitely less than among inhabitants of uncivilized countries.

Making for Happiness

There is no happiness in having and getting, but only in giving; half the world is on the wrong scent in the pursuit of happiness.—Henry Drummond.

After They Drop Money

As a means for reducing the number of suicides at Monte Carlo the management of the casino maintains what is called the "vaticum," a fund the object of which is to provide transportation home for every gambler who has lost all his money.

TINLEY TOWN TOPICS

Saturday, August 17th was a big day for H. F. Brueggemann as he acquired a son-in-law, Mr. Henry Duff by name when he and Miss Selma Brueggemann were married in a church in Morgan Park. Mr. and Mrs. Duff will make their new home in Blue Island.

Lion Fred Goebel and his help mates are working overtime these nights trying to complete the house numbering program.

Last Saturday evening was a big nite for the Boy Scouts of Tinley Park as they cleared around \$80.00 by means of the dance given for their benefit by the local Legion Post.

The Lions are exceedingly enthusiastic about "The Big Parade and Dance" they intend to give Labor Day, as they are working on a large overhead advertising banner which they intend to string across the street and thus remind the many transients of again returning on that day for a big time in the old town.

Mrs. Erika Mahnke has returned from the hospital where she had undergone an operation for appendicitis.

There was a great turnout at the lecture given by a man from Swift & Company, under the auspices of the Tinley Park Garden Club at the Community hall last Friday. Many members of the Garden Clubs of Mokena and Blue Island were present.

The American Legion Post 615 held their regular meeting Monday evening at their hall.

The commanders and vice-commanders of Englewood and Midlothian Posts and Clarence H. E. Goessel of this town were guests of the evening.

A discussion was had on the merits of giving a play in the near future and was tabled for the time being.

It was mentioned that the second allotment of curb flags were now received and would be placed within the next few days.

The Legionnaires are planning on entering the Lions Parade on Labor Day and have also consented to lead the parade with their colors.

A very fine luncheon was served by a few very capable "mess sergeants" of the evening.

The third district, Illinois Federation of Women's Clubs, Garden department will meet for luncheon in the garden of Mrs. Donald McClure of Chicago Heights, Friday, Aug. 30.

There will be a program in the afternoon. The speakers will be Mrs. J. Marc Fowler, state president; Mrs. Charles Caldwell, state garden chairman; Mrs. Richard McClure, district president; Mr. James Burdette will speak on the Spring Flower show to be held in the Sherman Hotel, Mrs. Wallace B. Combs, district garden chairman will preside.

MOKENA TO HAVE DOUBLE HEADER GAME

(continued from front page)

kept coming, and they tied the score 10 and 10 in the fifth. We got away from them again and had a four-run lead to work on in the seventh, but our four-run lead did not amount to a hill of beans; they counted six times and Mokena couldn't do a thing after that.

As the old slang phrase has it, Knudson "couldn't get to first base" and he didn't either. He and "Sonny" were fighting too hard for the lead in the team's batting averages, it seems, because neither of them could do much with the stick. Sonny got a double, and that was all.

That was one big thing that kept us from winning the old ball game. Bennett didn't hit either, but he must have had an off-day, as he was not fighting anybody for batting honors. He struck out three times, and McGovney got only one hit in six times up, so with our heaviest hitters falling down, how could we win?

The pitching we were up against wasn't big league stuff. We made Graver quit, but Pennington wasn't any better. Of course, they struck out nine of our men, but we were swinging at bad ones and letting the good ones go by and taking it all around, we were not up to snuff in batting.

Next Sunday a double header will be played, Reab's All-Stars at one o'clock and the West Ends at three o'clock.

On Sept. 1 we will play the Speed Boys; on Sept. 8 Reab's All Stars; on the 15th Manhattan and on the 22nd the West Parks of Joliet.

We may play the Colts again at the Wheatland plowing match, Sept. 14, but that is not settled yet. Manager H. Graver of the Colts, is to let us know. We could not give him a definite answer last Sunday.

We do but one kind of printing—

GOOD PRINTING

Furniture Sale

Having rented my home in Orland Park, I will sell my furniture Monday afternoon August 26th at 1:30 p. m., daylight saving time, at my home in Orland Park.
